Non-Visa Debit Transactions Processing Rules Notice

- The Bridgeport Police FCU enables non-Visa debit transaction processing through its Visa Debit Cards. All transactions done with these cards do not require authentication through a PIN (Personal Identification Number) debit network. Pin-less transactions on a non-Visa network might not include Visa benefits such as Visa's zero-liability, provisional credit policies, and chargeback and dispute resolutions.
- The networks for which such non-Visa transactions are enabled on our Debit Cards are Allpoint, Cirrus, and NYCE.
- An example of this type of transaction would be: A member uses their Visa Debit Card to purchase an item through an online merchant. The member chooses a specific payment option because it matches the logo on his/her Debit Card. During the purchase process, a PIN is not needed to finalize the transaction. This would be a pin-less non-Visa debit transaction.
